Profile

As a dedicated enthusiast of Computer Science, my B. Tech studies have provided me with an enriched understanding of core principles, a versatile range of programming languages, and advanced software development technologies. This foundation fuels my passion to pioneer inventive solutions that redefine the forefront of technological progress.

Skills

Language - HTML5 , CSS , Java Script , C++   Technologies - React , Chat gpt (3.5)

Data Structures , Problem Solving , Operating System   GitHub , MS Word

Projects

Parallax Website ↗
A web design technique in which the website background moves at a slower pace than the foreground. This results in a 3D effect as visitors scroll down the site, adding a sense of depth and creating a more immersive browsing experience.

Restaurant Website ↗
Restaurant Marketing. A business website that aims to provide information on their menu, service, location, and other services. It also provides directions to the restaurant and online services.

Soft Drink Page ↗
An online soft drink landing page that sold their items using online webpage. Three different soft drink product with a choice button to select.
